PT	Practical training	43 ECTS
T	Participatory and research-oriented development	15 ECTS

BACHELOR'S DEGREE PROGRAMME IN SOCIAL SERVICES 210 ECTS

CURRICULUM 2020

The curriculum of the degree programme is designed to provide bachelor of social services with appropriate competences and skills in social services. The objectives and contents of the curriculum meet the requirements of level six in the National Framework for Qualifications and Other Learning (NQF) and in the European Qualifications Framework (EQF), enabling graduates to pursue higher education in many European and other international institutions.

An innovative approach in working with social issues in the local communities affected by the global developments are at the core of the degree programme. The nature of the work of bachelor of social services is broad and diverse and involves working with different working life partners. The students will learn to take into account questions related to human rights and work with diverse communities.

BACHELOR'S DEGREE PROGRAMME IN SOCIAL SERVICES **210 ECTS**

BASIC STUDIES:

Languages and Communication	10-15 ECTS
Orientation Studies	2 ECTS

PROFESSIONAL STUDIES:

Professional Studies	125 ECTS
Practical Training	43 ECTS

ELECTIVE STUDIES:

Supplementary professional competences	10–15 ECTS
--	------------

THESIS: **15 ECTS**

The Bachelor's Degree Programme in Social Services is comprised of three themes:

THREE THEMES:

1. Professional Practice in Community Development and Social Services;
2. Diversity in Communities and Participatory Work;
3. Participatory Development and Innovation.

All studies are closely interlinked with the working life in the social service field. In addition, the degree programme uses participatory methods in which learning and learning tasks serve the development needs of the working life.

LCO0005B20S	LEARNING & COMMUNICATION	5 ECTS
LCO0102B20S	A) Critical Approach to Learning	2 ECTS
<i>Learning outcomes:</i>	The students will be able to: <ul style="list-style-type: none">• use different learning methods at Diaconia University of Applied Sciences (Diak)• access and use student services provided by Diak• understand different learning environments and contexts• work as a member of an international study group	
<i>Contents:</i>	<ul style="list-style-type: none">• Different teaching and learning methods used at Diak• Student services at Diak• Different learning environments and contexts• Team and group work skills in an international study group	
LCO0203B20S	B) Communication Skills	3 ECTS
<i>Learning outcomes:</i>	The students will be able to: <ul style="list-style-type: none">• know the basic text types used during the studies• communicate orally and in writing in formal and informal situations in an academic context• give and receive constructive feedback• operate in different learning environments and use the digital tools required during their studies	
<i>Contents:</i>	<ul style="list-style-type: none">• Verbal and written communication skills• Presentation skills• Process writing• Referencing• Communication style• Intercultural communication• Different digital tools used at Diak	

ICO0005B20S	INDIVIDUAL IN THE COMMUNITY	5 ECTS

- Learning outcomes:* The students will be able to:
- have sufficient knowledge of features of academic English and a familiarity with the structure of academic text used in essays, articles, reports and other academic publications in general
 - critically assess academic English texts in the relevant fields
 - produce academic English text in the form of a report, summary and argumentative paper

- Contents:*
- Level test before the course
 - Basics in academic English
 - Assessment of academic English texts
 - Written assignment
 - A brief oral presentation of the written assignment

FIN1003B20S FINNISH BASIC LEVEL 1 A**3 ECTS**

- Learning outcomes:* The students will be able to:
- know Finnish language at the skill level A1.2
 - know vocabulary and grammar relevant to the skill level A1.2.
 - understand some familiar everyday expressions if the other person speaks very slowly
 - communicate with very basic phrases if the other person is prepared to help →

- **Contents:**
- Common vocabulary and phrases
 - Everyday speaking
 - Noun declension
 - Verb conjugation
 - Grammatical cases of genitive and partitive
 - Questions

PROFESSIONAL PRACTICE IN COMMUNITY DEVELOPMENT AND SOCIAL SERVICES (57-62 ECTS) SEMESTER 2 (30-32 ECTS)

TOS0005B20S **TOPICAL ISSUES IN SOCIAL WORK** **5 ECTS**

- Learning outcomes:** The students will be able to:
- understand different theories and theoretical approaches used in social work
 - understand and recognise the operation of power in social work practice
 - understand the need for critical reflection in social work practice
 - understand the role of social work in different local and global contexts

- Contents:**
- Different theories used in social work
 - Power in social work practice
 - Critical reflection and reflective practice in social work
 - Social work in different local and global contexts.

DEV0005B20S **DEVELOPMENT ACROSS THE LIFE SPAN** **5 ECTS**

- Learning outcomes:** The students will be able to:
- understand the basics of the life span approach in human development
 - understand the emotional, cognitive, moral and social development across the life span
 - reflect on cultural factors determining development across the life span
 - apply the life-span approach in social and community development work

- Contents:**
- Life span approach in understanding human development
 - Emotional, cognitive, moral and social development across the life span
 - Culture and human development
 - Life span approach in social work and community work

PCO0003B20S **PROFESSIONAL COMMUNICATION
IN SOCIAL WORK PRACTICE** **3 ECTS**

Learning outcomes: The students will be able to:

- use basic interviewing skills when working with service users
- apply solution-focused approach with diverse service users
- communicate in challenging situations in client work

Contents:

- Basic professional interviewing skills
- Solution-focused approach
- Communication in challenging situations in client work

Learning outcomes: The students will be able to:

- understand different youth cultures
- understand relevant legislation and policies affecting young people
- understand different challenges faced by young people in society
- understand different actors and services in youth work

Contents:

- understand preventive, outreach and rehabilitative youth work
- Youth cultures
- Relevant legislation and policies affecting young people
- Challenges faced by young people
- Actors and services in youth work
- Preventive, outreach and rehabilitative youth work

OFI0002B20S **ORIENTATION TO FINNISH WORKING LIFE** **2 ECTS**

OFI0101B20S **Orientation to Finnish Working Life** **1 ECTS**

Learning outcomes: The students will be able to:

- understand relevant labour legislation
- reflect on work life skills and practices in different contexts
- write a CV
- create and update a portfolio

Contents:

- Relevant labour legislation
- Work life skills and practices in different contexts
- CV
- Portfolio

OFI0201B20S **First Aid Skills in Social Service and Community Work Sector** **1 ECTS**

Learning outcomes: The students will be able to:

- apply first aid skills in the social service and community work sector

Contents: • First aid skills in the social service and community work sector

CWT0005B20S **COMMUNITY WORK THEORIES AND METHODS** **5 ECTS**

Learning outcomes: The students will be able to:

- recognise different concepts, definitions and theories in community work
- recognise the social capacity and assets of the members of communities
- understand the meaning of place in social service and community work
- apply different participatory community work methods in neighbourhood work

Contents: • Concepts, definitions and theories in community work

- Social capacity and assets of members of communities
- Meaning of place in social service and community work
- Participatory community work methods used in neighbourhood work

PRA1007B20S **PRACTICE IN FINNISH WORKING LIFE** **7 ECTS**

Learning outcomes: The students will be able to:

- know how to work in a responsible manner and follow the regulations of the work life
- develop a personal understanding of professional identity
- identify the placement context in the social service system
- improve their spoken and written Finnish skills in practice
- apply their skills in professional communication

Contents: • Work life regulations

- Professional identity and practice
- Social service system in Finland
- Practicing Finnish in a placement context
- Professional communication
- Client-oriented approach, client's right to good treatment
- Confidentiality, data protection and information security

*Learning
outcomes:*

The students will be able to:

- know Finnish language at the skill level A1.3
- know vocabulary and grammar relevant to the skill level A1.3
- use language in routine and simple discussions if the other person is prepared to help
- write short and simple messages on familiar topics
- understand some of the main points in relatively easy and slow discussions and short texts

Contents:

- Adjectives and description
- Verb types 1–5
- Local grammatical cases
- The objective
- Subordinate clauses
- Vocabulary relating to work and different professions, travelling and traffic, food and drink, living and home

DIVERSITY IN COMMUNITIES AND PARTICIPATORY WORK (92 ECTS)
SEMESTER 3 (29 ECTS)

SRA0005B20S SOCIAL AND REHABILITATIVE SERVICES FOR ADULT POPULATION **5 ECTS**

- Learning outcomes:* The students will be able to:
- understand different challenges affecting the everyday life of the adult population in Finland
 - apply legislation in the field of adult social work
 - understand the services, support and benefits available for service users
 - empower service users
 - use different participatory, socio-pedagogical, community-based work and narrative methods in adult social work
- Contents:*
- Challenges causing marginalisation e.g. unemployment, homelessness, poverty, loneliness
 - Relevant legislation
 - Rehabilitative services
 - Different participatory, socio-pedagogical, community-based and narrative methods in adult social work

DIS0004B20S DISABILITY IN DIVERSE CONTEXTS **4 ECTS**

- Learning outcomes:* The students will be able to:
- understand different types of disabilities
 - understand the relevance of international agreements and Finnish disability policy and legislation including accessibility, inclusion and right to self-determination
 - apply available services in work with people with disabilities in social sector and community development
 - recognise the impact of minority status on wellbeing
- Contents:*
- Types of disabilities
 - Accessibility, inclusion and right to self-determination
 - Finnish disability policy and legislation, international agreements
 - Service system
 - Impact of minority status on wellbeing

***Learning
outcomes:***

The students will be able to:

- know the relevant international conventions, and national policies and legislation related to child welfare and family work and apply this knowledge in practice
- understand the meaning of child welfare for the wellbeing of children and families
- know the main actors and services provided in child welfare, child protection and family work

- understand Swedish in written form, write in Swedish, and speak in Swedish in connection with general themes and communication situations in his/her field of work.

Contents:

- Basic grammar
- Speaking, writing, and reading
- General vocabulary, themes, and phrases related to student's profession
- Team and group work skills in an international study group

FIN3003B20S FINNISH BASIC LEVEL 1 C**3 ECTS***Learning
outcomes:*

The students will be able to:

- know Finnish language at the skill level A2.1
- know vocabulary and grammar relevant to skill level A2.1
- use the language in routine and simple discussions
- write longer texts
- identify topics in a clearly progressing, slow discussion
- understand the main points in short, relatively easy texts
- master the basics of grammar
- know some vocabulary in Finnish regarding his/her field of study or work

Contents:

- Past tense
- Different word types
- Verb type 6
- Verb + -z,-massa,-masta
- Vocabulary relating to student's placement, health, nature and hobbies

SUB0005B20S **SUBSTANCE ABUSE AND ADDICTIONS**

5 ECTS

- Learning outcomes:* The students will be able to:
- understand different theories and concepts in substance abuse and addictions
 - understand the legislation and policies related to substance abuse and addictions
 - understand different services in rehabilitation
 - use methods in identifying substance abuse and addictions
 - apply work methods and advanced counselling skills in work with people with substance abuse problems
- Contents:*
- Theories and concepts of substance abuse, alcohol abuse, drug abuse, drugs, addictions, game addiction
 - Legislation and services
 - Different treatment approaches
 - Methods in identifying substance abuse or addiction
 - Work methods and advanced counselling skills in work with people with substance abuse and addictions problems

MEN0005B20S **MENTAL HEALTH AND WELLBEING**

5 ECTS

- Learning outcomes:* The students will be able to:
- understand the core concepts and the theories of mental health and wellbeing
 - reflect on the current issues in mental health and know the common types of mental health problems
 - understand mental health legislation in relation to different mental health services
 - understand the different types of mental health services and how to refer service users to mental health services
 - understand the different methods and interventions in mental health social work
 - use a recovery-oriented, community-based approach in work with people with mental health problems
- Contents:*
- Concepts, theories and approaches to mental health and wellbeing
 - Current issues in mental health and in the treatment of mental health problems
 - Mental health services and legislation
 - Methods and interventions in mental health social work
 - Community based mental health services and mutual support organizations

- Learning outcomes:* The students will be able to:
- have an advanced knowledge of academic English especially as used in the thesis work
 - understand the formal structure of the thesis
 - produce linguistically appropriate academic English text especially in the form of a thesis
 - analyse the linguistic aspects of presented idea papers and thesis proposals
- Contents:*
- Advanced knowledge of academic English
 - Formal structure of the thesis
 - Production of linguistically appropriate academic English text (thesis idea paper, thesis proposals)
 - Analysis of the linguistic aspects of presented idea papers and thesis proposals

PRA2116B20S Practice with Diverse Service User Groups 16 ECTS

- Learning outcomes:* The students will be able to:
- support, guide and empower service users
 - apply participatory, social and community work methods with different service users in the placement context
 - understand the importance of documentation in client work
 - apply relevant legislation in work with service users
 - uphold the ethical principles of the social services sector
 - understand the value of working in a multi-professional team and the importance of professional networking
- Contents:*
- Participatory, social and community work methods with diverse service users
 - Documentation in client work
 - Legislation and ethical principles of the social service sector
 - Confidentiality, accessibility, data protection and information security
 - Working in a multi-professional team and networking

PRA2202B20S Reflective Workshops 2 ECTS

- Learning outcomes:* The students will be able to:
- evaluate and set new aims for their professional development during the placement
 - reflect on their professional identity, roles and agency in the social service field
 - assess and reflect on their work practices based on professional work in social service field
 - understand the ethics of social and community work

RES0103B20S **PARTICIPATORY AND RESEARCH-ORIENTED
DEVELOPMENT 1**

3 ECTS

Learning outcomes: The students will be able to:

- recognise research, development and innovation processes in a working life context
- recognise different research methods and data analysis methods
- understand the thesis process
- understand aims, theoretical concepts, methods and ethics in the thesis process
- write a thesis idea paper

Contents:

- Contents:
- Research, development and innovation process in a working life context
- Research methods and data analysis methods
- Thesis process
- Aims, theoretical concepts, methods and ethics in thesis process
- Thesis idea paper

**DIVERSITY IN COMMUNITIES AND PARTICIPATORY WORK (92 ECTS)
SEMESTER 5 (30 ECTS)**

MIG0005B20S **MIGRATION LOCALLY AND GLOBALLY**

5 ECTS

Learning outcomes: The students will be able to:

- understand core concepts and trends related to global migration
- recognise the concepts and policies in relation to the integration process and analyse its impact on the individual and the society
- apply anti-racist approach in understanding policies, structures and practices on discrimination and racism
- understand the role of human rights as well as international and national legislation and policies in the context of migration

Contents:

- Core concepts related to migration and minority status
- Local and global trends for migration
- Integration policies, practices and trends
- Anti-racist approach in understanding policies, structures and practices on racism and discrimination
- Relevant legislation and migration policies (national, international)

PDI0005B20S	PROFESSIONAL SKILLS FOR WORKING IN DIVERSITY SETTINGS	5 ECTS
--------------------	--	---------------

Learning outcomes: The students will be able to:

- reflect on their own personal background and be sensitive to different service users in a diversity context
- develop skills in anti-oppressive practice and human rights-based approach in relation to oppressed individuals, groups and communities
- understand concepts in relation to sexual orientation, gender diversity and gender sensitivity in social work
- understand interfaith dialogue, diversity in religions and spirituality in social work
- familiarise themselves with multicultural competences and intercultural communication in different work settings

Contents:

- Self-reflection in a diversity context
- Anti-oppressive practice and human rights-based approach
- Sexual orientation, gender diversity, gender sensitivity
- Interfaith dialogue, diversity in religions and spirituality in social work
- Multicultural competences and intercultural communication in different work settings

PRA3018B20S	PRACTICE IN DIVERSE SETTINGS	16 + 2 ECTS
--------------------	-------------------------------------	--------------------

PRA3116B20S	Practice in Diverse Settings	16 ECTS
--------------------	-------------------------------------	----------------

Learning outcomes: The students will be able to:

- apply relevant social sector specific approaches, methods and legislation in a professional manner
- promote equality, inclusive practices and advocacy work
- analyse societal and ethical problems in work settings
- reflect on the different values and possible value conflicts in a work community
- recognize and evaluate possible developmental needs and practices in working life
- apply project management skills (as applicable)

Contents:

- Approaches, methods and legislation in the placement context
- Equality, inclusive practices, advocacy work
- Analysis of societal and ethical problems
- Reflection on possible value conflicts
- Developmental needs in working life
- Project management skills (as applicable)

PRA3202B20S**Reflective Workshops****2 ECTS***Learning
outcomes:*

The students will be able to:

- critically evaluate their professional development at work
- critically reflect on their professional values and ethics
- recognise the necessary social sector competences required in the field
- reflect on their professional identity, roles and position as a professional in the field

RES0202B20S**PARTICIPATORY AND RESEARCH-ORIENTED
DEVELOPMENT 2****2 ECTS***Learning
outcomes:*

The students will be able to:

- apply research, development and innovation processes
- apply different strategies and methods in research, development and innovation
- recognise participatory research approach
- write a thesis plan
- manage and use guidance in the thesis process
- critically reflect on research and other sources of knowledge and justify their decisions

Contents:

- Research, development and innovation processes
- Strategies and methods in research, development and innovation
- Participatory research approach
- Thesis plan
- Management and guidance in thesis process
- Critical reflection on research and other sources of knowledge

A series of horizontal lines for writing, consisting of 25 evenly spaced lines across the page.

PARTICIPATORY DEVELOPMENT AND INNOVATION (56–61 ECTS)
SEMESTER 6 (31 ECTS)

PMI0009B20S PROJECT MANAGEMENT AND INNOVATION 9 ECTS

- Learning outcomes:* The students will be able to:
- know the process of developing and managing projects
 - know the project cycle management and different evaluation methods
 - write and implement a project plan, monitor the project and report on its progress
 - use networks and partnerships in professional practice
 - know different national and international funding instruments
- Contents:*
- Project development and project management
 - Project cycle management and evaluation
 - Project plan, project implementation, monitoring and reporting
 - Networking and partnership working
 - Funding instruments

CRI0005B20S CRISIS WORK 5 ECTS

- Learning outcomes:* The students will be able to:
- know the stages of developmental and life crises and traumatic stress reactions
 - understand the different methods, interventions and approaches in crisis work to support individuals and communities
 - recognise actors, practices and services in crisis work
 - understand and recognise the importance of self-care methods in dealing with secondary traumatic stress in client work
- Contents:*
- Stages of developmental and life crises and traumatic stress reactions
 - Interventions, methods and approaches in crisis work
 - Actors, practices and services in crisis work
 - Secondary traumatic stress and self-care in client work

CAP0005B20S CIVIC ACTION AND PARTICIPATION 5 ECTS

- Learning outcomes:* The students will be able to:
- identify strategies in civic action and voluntary work
 - apply different models of civic action and participation
 - analyse the role of professionals in relation to different actors in civil society
 - plan and implement different activities of voluntary work in communities
 - recognise practices of power in civic action and voluntary work
- Contents:*
- Strategies in civic action and voluntary work
 - Models in civic action and participation
 - Role of professionals in relation to actors in civil society
 - Planning and implementation of voluntary work activities in communities
 - Practices of power in civic action and voluntary work

EXP0003B20S **EXPLOITATION IN A GLOBAL FRAME****3 ECTS****Learning
outcomes:**

The students will be able to:

- understand various processes behind global forms of exploitation
- analyse local and global factors affecting exploitative practices
- understand the relevant legislation and policies
- utilize the networks of different actors tackling different forms of exploitation in work with service user groups

Contents:

- Processes behind global forms of exploitation
- Factors affecting exploitative practices
- Legislation and policies
- Networks of actors tackling various forms of exploitation

DIC0004B20S **DIGITAL COMPETENCE****4 ECTS****Learning
outcomes:**

The students will be able to:

- understand service users' viewpoints on digital services
- apply professional communication and offer guidance in digital services
- understand ethical principles and the legal framework in digital services
- professionally use social media in social work and community development work
- understand the main developments in digitalisation and welfare technologies

Contents:

- Digital services
- Professional communication in digital services
- Ethical principles and the legal framework in digital services
- Social media in social work and community development work
- Digitalisation and welfare technologies

RES0305B20S **PARTICIPATORY AND RESEARCH-ORIENTED
DEVELOPMENT 3****5 ECTS****Learning
outcomes:**

The students will be able to:

- apply research, development and innovation methods in a working life context
- implement the thesis with an innovative and reflective approach to social services and the community work setting
- understand the meaning of evaluation and analysis in research, development and innovation processes
- give and receive constructive feedback in the thesis process
- write a thesis manuscript

Contents:

- Research, development and innovation methods in a working life context
- Implementation of a thesis in a social services and community work context
- Evaluation and analysis of research, development and innovation processes
- Constructive feedback in the thesis process
- Thesis manuscript

MAN0005B20S **MANAGEMENT AND LEADERSHIP**

5 ECTS

- Learning outcomes:* The students will be able to:
- understand different management and leadership theories and practices
 - recognise management strategies applied in organisations in the field of social work and community development work
 - analyse organisational theories and their application in social work and community work practice
 - understand the importance of welfare at work
 - apply leadership approaches and practices at work in different organizations
- Contents:*
- Management and leadership theory and practice
 - Management strategies
 - Organisational theories
 - Welfare at work

ENT0005B20S **ENTREPRENEURSHIP IN SOCIAL SERVICE SECTOR**

5 ECTS

- Learning outcomes:* The students will be able to:
- understand the types, roles and future prospects of enterprises in the social welfare sector
 - know the skills and attitude required for successful entrepreneurship
 - assess their own skills to act as an entrepreneur
 - develop and assess their own business idea in the social welfare field
 - know how to start their own business and manage risks related to start-ups
 - know the basics in financing, productizing, pricing and marketing process for building up sustainable business service ideas
- Contents:*
- Types, roles and future of enterprises in the social welfare sector
 - Characteristics and skills of entrepreneurs
 - Analysing business opportunities and market research
 - Process of business start-up; from business idea to business plan
 - Risk management and assessment
 - Financing, pricing, productizing and marketing business services

RES0405B20S**PARTICIPATORY AND RESEARCH-ORIENTED
DEVELOPMENT 4****5 ECTS*****Learning
outcomes:***

The students will be able to:

- evaluate research, development and innovation processes in a professional field
- present and justify the results of their work in the thesis publication seminars
- participate in professional and ethical discussions
