

## Clinical Practice Path (Bachelor Of Health Care, Nursing (Registered Nurse))

	<p><b>General Information</b></p> <p>1. The placements are carried out in an environment in which the objectives of the course can be achieved.</p> <p>2. In the clinical practice unit, the supervisor of the student must be a nurse (2013/55/EU).</p> <p>3. One credit (ects) of clinical practice is equivalent to 27 hours. The duration of the clinical practice is determined by the number of credits. The table shows the recommended length in weeks of the clinical practice periods for the <i>Jobiili</i> booking. The length may be affected by RPL (Recognition of prior learning) and by the work practice opportunities offered by the work community.</p> <p>4. The work placement hours include the following:</p> <table><tr><td>• information events about work practice and <i>Jobiili</i></td><td>2 hours</td></tr><tr><td>• Preparing/updating CV and finding placement for practice</td><td>1 hour</td></tr><tr><td>• Goal setting</td><td>1 hour</td></tr><tr><td>• Reflections</td><td>4 hours</td></tr><tr><td><b>total</b></td><td><b>8 hours</b></td></tr></table> <p>These 8 hours are deducted from the total hours for each practice, leaving the remaining hours to be spent in the placement. E.g. PRA1 (5 ects) 135 h – 8 h = 127 hours</p> <p>5. The number of hours of practice at the placement must be completed in full. If there are public holidays during the practice, they do not reduce the number of hours.</p> <p>6. Absences during the practice must always be reported to both the practice placement unit and the supervising lecturer. Compensation for absences must be agreed with the lecturer supervising the practice.</p> <p>7. The mandatory clinical practices in nursing must be completed in the following areas:</p> <ul style="list-style-type: none"><li>• home care</li><li>• internal medicine</li><li>• surgical care</li><li>• mental health work, crisis work and substance abuse work</li><li>• nursing of children, adolescent, and families</li><li>• elderly care</li><li>• maternity care (linked to studies of the nursing of children, adolescent, and families)</li></ul>	• information events about work practice and <i>Jobiili</i>	2 hours	• Preparing/updating CV and finding placement for practice	1 hour	• Goal setting	1 hour	• Reflections	4 hours	<b>total</b>	<b>8 hours</b>	<p><b>180 ects/ 210 ects</b></p>
• information events about work practice and <i>Jobiili</i>	2 hours											
• Preparing/updating CV and finding placement for practice	1 hour											
• Goal setting	1 hour											
• Reflections	4 hours
